FOR IMMEDIATE RELEASE

USASF AND OPEN CHAMPIONSHIP RESOLUTION

August 13, 2026

The U.S. All Star Federation (USASF) is pleased to [announce](#) that it has reached a mutually satisfactory resolution of all pending legal disputes with Open Cheer, Deep South, and their ownership group. We are proud of where we landed and, more importantly, grateful to now move forward with our full attention where it belongs – on our members, our athletes, and the future of All Star.

As the first and largest All Star membership organization that created a unified structure for divisions, competition standards and athlete protection, we will continue to evolve – but the principle remains constant: athletes first.

We are proud of USASF's history, and we are even more excited and focused on what comes next.

Together, we will continue doing what USASF was created to do: bring the All Star community together, put athletes first, and define a path forward built on safety, fair play and opportunity for all.

About USASF: *The USASF is a membership organization that helps foster and promote a culture that supports fair play, safety, and growth in All Star Cheer and All Star Dance.*
